## Major and Minor Plan Combinations

Due to some redundant courses in many plans of study, several double major or major + minor/concentration combinations are not permitted. Students cannot major and minor in the same subject for any program. Students cannot major and earn a concentration in the same subject for any program. Students cannot minor and earn a concentration in the same subject for any program. For any double major or major + minor/concentration combinations it is up to the discretion of each program if they are willing to allow any courses to count towards both plans of study. Programs may list in the catalog any disallowed plan of study
