Admission Requirements Nutrition and Dietetics Major Application Requirements (Lisle Campus Only)

Application and admission to the Nutrition and Dietetics major is through the Department of Nutrition. Candidates desiring to declare the Nutrition and Dietetics major should consult with their academic advisors early in their academic career to ensure that they enroll for the appropriate courses needed for admission to this major. Enrollment in this program is limited; those interested in pursuing the Nutrition and Dietetics majors must apply to the Nutrition department for acceptance into this major after meeting the criteria specified below and by using the required form available online or from the Nutrition Department. Transfer students who have met all application criteria listed below can apply (i.e., complete the Nutrition Department application) for entry into the major at the point of entry into the University. Priority for Permission Numbers go to those students who are accepted into this major. Students meeting the following eligibility criteria have the opportunity to apply to enter this major at Benedictine University:

1. Completion of the following courses with a grade of "C" or better: CHEM 1101 Introduction to Chemistry [or CHEM 1113 General Chemistry I and CHEM 1123 General Chemistry II], CHEM 1103 Introduction to Organic Chemistry [or CHEM 2242 Organic Chemistry I and CHEM 2247 Organic Chemistry II], and credit or concurrent registration in CHEM 1109 Introduction to Biochemistry [or CHEM 3261 Principles of Biochemistry].
2. Completion of one of the following courses with a grade of "C" or better: BIOL 1157 Introductory Anatomy & Physiology I, or BIOL 1197 Principles of Organismal Biology, or BIOL 1198 Principles of Biology credit or concurrent registration.
3. Credit or concurrent registration in NUTR 2241 Nutrition through the Life Cycle.
4. Completion of all University required Basic Skills Courses (with a grade of "C" or better).
5. Completion of ServSafe Food Manager Certification (provide copy with application to Nutrition and Dietetics major).
6. Completion of at least 24 semester credit hours.
7. GPA of at least 3.000/4.000.
8. Evidence of membership in the Academy of Nutrition and Dietetics. This is required prior to

- a. the start of NUTR 4372 Clinical Nutrition Case Studies,
 - b. receipt of the DPD Declaration of Intent, which is required to apply to Dietetic Internship programs, and
 - c. receipt of DPD Verification Statement.
9. Evidence that all vaccinations (including flu and COVID), medical/laboratory tests, and drug screens are completed (subject to change as you must meet current requirements of our medical facility affiliation), required prior to NUTR 4372 Clinical Nutrition Case Studies.
 10. No negative incidents reported on a background check, required prior to NUTR 4372 Clinical Nutrition Case Studies.

Applications to the Nutrition and Dietetics major are normally processed within three weeks of these due dates: August 15, September 30, January 15, and June 30.

Due to course sequencing, the students accepted into this major should expect to need at least four semesters to complete the required courses after acceptance into this major. *All of the medical nutrition and counseling courses unique to this major are available only to the Lisle main campus.*

If it is determined at any time that a student cannot complete program requirements with a Nutrition and Dietetics degree, the student will be required to change his or her major and seek academic advising outside of that program. Students can pursue an alternate major in the department, such as Food and Nutrition Management or Health Education and Promotion, (or another department), as well as reapply to pursue the Nutrition and Dietetics major, if qualified in the future. Permission to enroll in and/or completion of courses required for this major does not imply acceptance into the Nutrition and Dietetics major or the graduate Nutrition and Dietetics degree.

Students in the Nutrition and Dietetics major are strongly encouraged, although not required, to maintain a cumulative GPA of 3.400 or higher if considering applying for a position in a Dietetic Internship program in the future.

Courses Health Education and Promotion

HLED 1191 Topics. Special topics in health, with a focus on personal applications of principles for optimal health. Topics may be changed so that the course may be repeated for credit. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 12.

Campus: LISLE (Typically Offered: Periodically)

HLED 2222 Medical Terminology for Health Promotion. Introduction of medical terms for allied health professionals, with a focus on those commonly encountered by the health promotion professional. Major in Health Education and Promotion or Nutrition and Dietetics or Nutrition and Allied Health or pre-dietetics, or consent of department. 1 semester credit hour/s.

Campus: LISLE (Typically Offered: Periodically)

MESA

HLED 2280 Community Health and Nutrition Programs. (Formerly 280) Introduction to the role of the Public and Community Nutrition professional. Over view of health care policy, health care systems, and legislation, discussion of the legislative and regulatory basis of nutrition and dietetics practice, and advocacy. Discussion of current public health and nutrition problems, existing programs and other resources, health literacy, role of environment, and marketing for improving the health of the population, as well as application through development of an educational intervention for the community. Transportation may be required. Prerequisite: NUTR 2200, 2201, 2231 or 2241; or junior standing by credits with co-registration in NUTR 2200, 2201, 2231 or 2241, and consent. Cross-listed HLED 2280 and NUTR 2280. 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall and Spring Terms)
MESA (Typically Offered: Periodically)

HLED 2291 Topics. Special topics in health. Topics may be changed so that the course may be repeated for credit. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 12.

Campus: LISLE (Typically Offered: Periodically)

HLED 3001 Introduction to Health Education and Promotion. This survey course provides an overview of the discipline of health education as well as the knowledge and skills required in the practice. Fundamental topics of historical context, research, resources, and priorities are explored. The role and competencies of the entry-level health education specialist are introduced as well as certification, occupational settings, future trends, behavior change, multicultural competence, philosophy and ethics that inform professional decisions. 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)
MESA (Typically Offered: Fall Term)

HLED 3271 Health Education. (Formerly 271) Health education planning for groups. Focus on competencies for health education specialists related to programs, including pre-planning, behavior change theories, needs assessment, developing goals and objectives as well as intervention strategies with cultural competence, implementation and evaluation. Students develop an educational intervention to facilitate health behavior change in an at-risk audience. Prerequisite: credit or coregistration in NUTR 2200 or 2201 or 2241. 3 semester credit hour/s.

Designation: Writing Intensive

Campus: LISLE (Typically Offered: Fall and Spring Terms)
MESA (Typically Offered: Fall Term)

HLED 3290 Selected Topics. Special topics in health education and promotion. Topics may be changed so that the course may be repeated for credit. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 12. Department Consent Required.

Campus: LISLE (Typically Offered: Periodically)

HLED 3357 Health Communications. (Formerly 357) Study of communication models and strategies to inform and influence individual and community decisions that enhance health. Includes building communication framework and collaboration, and using New and emerging social and media technologies for dissemination of health information, and innovations. Prerequisite: Credit or coregistration with HLED 3271 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Spring Term, Odd Years)
MESA (Typically Offered: Spring Term, Odd Years)

HLED 3363 Management of Health Initiatives. (Formerly 363) This course addresses key concepts for effective management of health education activities. Key topics focus on the administration organizational structure and include: facilitating partnerships, coordinating logistics, training staff/volunteers, monitoring resources, assessing technology needs, building relationships with partners/stakeholders, demonstrating strategic leadership, conducting quality assurance tasks, and engaging in purposeful advocacy. Prerequisite: credit or co-registration in HLED 3271. 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term, Even Years)
MESA (Typically Offered: Fall Term, Even Years)

HLED 4369 Health Coaching Techniques. (Formerly 369) This course introduces the health coaching principles and skills for health professionals. It provides a practical foundation about evidence-based coaching psychology. Participants will explore a driving question -- How can one inspire others to take charge of their lives and make healthful behavior choices? The course addresses: i) coaching relationship skills and presence; ii) harnessing motivation; iii) identifying generative moments; iv) conducting coaching sessions; and v) thriving as a coach. Prerequisites: NUTR 2200, 2201, 2231, or 2241; and HLED 3271. 3 semester credit hour/s.

Campus: MESA (Typically Offered: Spring Term)
LISLE (Typically Offered: Spring Term)

HLED 4381 Behavioral and Social Aspects of Public Health. (Formerly 381) Addresses behavioral and social factors and theories related to individual and population health. Prerequisite: Senior standing by credits, HLEDPR Major, 2.800/4.000 GPA, and consent of Nutrition Department Chairperson. It does not count towards science core, general education courses, nutrition major elective, or health science major credit. 3 semester credit hour/s. Department Consent Required.

Campus: LISLE (Typically Offered: Fall and Summer Terms)
MESA

HLED 4390 Selected Topics. Special topics in health education and promotion. Topics may be changed so that the course may be repeated for credit. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 12. Department Consent Required.

Campus: LISLE (Typically Offered: Periodically)

HLED 4394 Health Research Methods and Program Evaluation. This course provides an overview of scientific writing, research design and evaluation methods, assessment and evaluation instruments, data collection methods, measurement and statistical analysis. Pre-Requisite: "C" or better in WRIT 1102; HLED 3271; and Credit or co-registration in MATH 1150 or PSYC 2250. 3 semester credit hour/s.

Designation: Writing Intensive

Campus: LISLE (Typically Offered: Spring Term, Odd Years)
MESA (Typically Offered: Spring Term, Odd Years)

HLED 4399 Health Research. A supervised health research project that is conducted on or off campus. Transportation may be required. Independent Study. Prerequisite: GPA of 3.20 or higher. Grade of C or better in WRIT 1102. Grade of C or better in MATH 2229 or PSYC 2250 or MATH/MGT 1150. Credit or co-registration in HLED 4392. Instructor consent. Fee: \$170. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 9. Department Consent Required.

Campus: LISLE (Typically Offered: Periodically)
MESA

HLED 4466 Health Education Capstone. (Formerly 4366) Capstone experience for Health Education and Promotion Majors. This course focuses on NCEC Areas of Responsibility (2020) IV-VI with competencies related to community needs assessment and health improvement as well as professional development. Working as a small team, students will conduct a community health assessment project in order to identify and address current or emerging health issues in a community with the goal to develop long-term health improvement strategies. This will also involve community engagement and collaborative participation with partners. Part of the course is at an off-campus site; transportation may be required. Prerequisites: GPA of 2.50/4.00; AND Senior standing by credits earned prior to start of experience; AND Grade of "C" or better in the following: NUTR 2200, 2201, 2231 or 2241; HLED 3271; and HLED/NUTR 2280. Credit or co-registration in HLED 3363; AND must be Health Education and Promotion major (HLEDPRMAJ); AND Department Consent Required. 3 semester credit hour/s. Department Consent Required.

Designation: Engaged Learning

Campus: LISLE (Typically Offered: Spring Term)
MESA (Typically Offered: Spring Term)

Nutrition

NUTR 1150 Food Service Sanitation. (Formerly 150) An overview of applied Food Service Sanitation as it relates to proper food handling and training in the Food Service industry. Emphasis placed on prevention of food borne illness, and safety related to food, personnel, and consumers. At the completion of the course, students take the sanitation certificate exam. Prerequisites: Must be Major in Nutrition, Pre-Dietetics, Nutrition and Dietetics, or Food and Nutrition Management. 1 semester credit hour/s.

Campus: LISLE
MESA

NUTR 1191 Topics. Coverage of topics in nutritional sciences, with a focus on personal applications of principles for optimal health. Topics may change so the course can be repeated for credit. 3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 12.

Designation: Life-Scientific (QLS)

Campus: LISLE (Typically Offered: Periodically)
MESA

NUTR 2200 Nutritional Science. (Formerly 200) An integrated approach to the study of the requirements and functions of nutrients that are determinants of health and disease in human populations. 3 semester credit hour/s.

Designation: Life-Scientific (QLS)

Campus: LISLE (Typically Offered: Fall, Spring, and Summer Terms)
MESA (Typically Offered: Fall, Spring, and Summer Terms)

NUTR 2201 Nutrition in Health and Exercise. (Formerly 201) An integrated approach to the study of the requirements and functions of nutrients, with particular attention to applications in sports. Prerequisite on Lisle Campus: Physical Education or ESS major with at least Sophomore standing by credit hours. 3 semester credit hour/s.

Designation: Life-Scientific (QLS)

Campus: LISLE (Typically Offered: Fall and Spring Terms)
MESA (Typically Offered: Fall and Spring Terms)

NUTR 2220 Mediterranean Diet: Relationship to Health and Culture. (Formerly 220) This is a course involves online coursework prior to the trip, and experience on ground in Florence, Italy. We will investigate the evolution, characteristics, and health benefits of the Mediterranean Diet using Italian cuisine as a case study. The course will explore the scientific link between the dietary pattern and health outcomes, as well as how constituent foods historically and currently are produced and prepared. The course will also explore the culture's role in dietary habits and culinary practices. Class methods will employ lecture, discussions, tastings, cooking classes, and tours and excursions to food production/processing and cultural sites in Florence, Rome, and the region of Tuscany. This course is applying for the co-curricular designation as a QLS, global, sustainability, engaged learning and learning communities course. 4 semester credit hour/s.

Designation: Sustainability; Life-Scientific (QLS); Learning Community; Global; Engaged Learning

Campus: LISLE (Typically Offered: Spring Term, Even Years)
MESA (Typically Offered: Spring Term, Even Years)

NUTR 2231 Human Nutrition. (Formerly 231) An integrated approach to the study of the requirements and functions of nutrients that are determinants of health and disease in human populations. Applications to the life span. 3 semester credit hour/s.

Designation: Life-Scientific (QLS)

Campus: MESA (Typically Offered: Periodically)

NUTR 2241 Nutrition through the Life Cycle. (Formerly 241) A life cycle approach to nutrition science; incorporates nutrient availability, function and sources; energy balance; lifestyle health risk factors; with a focus on special nutrient needs for various stages of the life cycle. Students are introduced to the case study process. ONLY for majors and minors in the Department of Nutrition. (Lisle campus only) 3 semester credit hour/s. Department Consent Required.

Designation: -

Campus: LISLE (Typically Offered: Fall Term)

NUTR 2242 Introduction to the Health and Nutrition

Professions. (Formerly 242) An overview of the profession that will cover scope of practice, code of ethics, resources for evidence-based practice, professional organizations, career options, professional development, and professional trends for dietetics, nutrition, and health education professionals. 1 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)

NUTR 2245 Food Science Laboratory. (Formerly 245) Techniques of food preparation. Applied sensory and physiochemical examination of study of the composition, structure, and functional properties of carbohydrates, proteins, and fats. Prerequisite: Major in Pre-Dietetics, Nutrition and Dietetics, or Food and Nutrition Management. Lab fee: \$170.00 1 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall and Spring Terms)
MESA (Typically Offered: Periodically)

NUTR 2250 Foodservice Operations. (Formerly 250) This course presents the following foodservice principles and processes to deliver quality services: menu planning, purchasing, procurement, production, distribution and service, quality improvement, and layout and design. Prerequisite: Credit or co-registration in NUTR 1150; and credit or coregistration in NUTR 2241 or 3244. Lisle campus only 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)

NUTR 2280 Community Health and Nutrition Programs. (Formerly 280) Introduction to the role of the Public and Community Nutrition professional. Over view of health care policy, health care systems, and legislation, discussion of the legislative and regulatory basis of nutrition and dietetics practice, and advocacy. Discussion of current public health and nutrition problems, existing programs and other resources, health literacy, role of environment, and marketing for improving the health of the population, as well as application through development of an educational intervention for the community. Transportation may be required. Prerequisite: NUTR 2200, 2201, 2231 or 2241; or junior standing by credits with co-registration in NUTR 2200, 2201, 2231 or 2241, and consent. Cross-listed HLED 2280 and NUTR 2280. 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Spring Term)
MESA

NUTR 2291 Topics. Coverage of topics in nutritional sciences and its relationship to health maintenance and disease prevention. Topics may change so the course can be repeated for credit. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 12.

Designation: Life-Scientific (QLS)

Campus: LISLE (Typically Offered: Periodically)
MESA

NUTR 2298 Cultural Foods. (Formerly 298) An overview of the food habits of world cultures, including discussion of ways in which food, food production, food consumption and food rituals are associated with cultural norms, health and behaviors, social conventions, religious practices, and individual and group ways of living. Laboratory component provides exposure to traditional foods and food preparation techniques. Lab fee: \$170.00. Prerequisite: NUTR 3244 and 2245. 3 semester credit hour/s.

Designation: Global

Campus: LISLE (Typically Offered: Spring Term)
MESA

NUTR 2364 Food Systems and Policy. (Formerly 364) An evidence-based exploration of the food system's interrelationships with public health, nutrition, the environment, equity, and society. Topics concerning food production, global markets, labor practices, policy and politics, food manufacturing practices and marketing techniques will be examined. This course includes identification of areas of concern and challenges, discussion of policies, advocacy, and action opportunities, identification of personal opportunities for stewardship, and development of intervention strategies. Prerequisite: WRIT 1101 and 1102; 3 semester credit hour/s.

Designation: Sustainability

Campus: MESA (Typically Offered: Spring Term)
LISLE (Typically Offered: Spring Term)

NUTR 3244 Food Science. (Formerly 244) A study of the physical and chemical composition, structure, and functional properties of carbohydrates, proteins, and fats; sensory evaluation principles; and applications to food and nutritional health. Prerequisite: CHEM 1101 or CHEM 1123 or NUTR2245. 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)
MESA (Typically Offered: Fall Term)

NUTR 3246 Experimental Foods Laboratory. (Formerly 246) Experimental application of physiochemical behavior of food. Techniques of recipe development and recipe development research to meet special dietary requirements, including evaluation techniques. Prerequisite: NUTR 3244 and 2245. Lab fee: \$170. 1 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)

NUTR 3251 Nutritional Biochemistry. (Formerly 251) A study of the basic concepts of biochemistry applied to cellular metabolism of carbohydrates, lipids, amino acids, vitamins, and co-factors. Emphasis is placed on metabolic pathways, the interrelationships of major nutrients, and the relation of the metabolic processes to the overall nutritional health of an individual. Prerequisite: CHEM 1103. 3 semester credit hour/s.

Campus: MESA

NUTR 3290 Selected Topics in Nutrition. (Formerly 290) Special topics adjusted to the needs of the students. Topics may be changed so that the course may be repeated for credit. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 18.

Campus: LISLE (Typically Offered: Periodically)
MESA

NUTR 3295 Nutrition Teaching. (Formerly 295) Supervised teaching of nutrition in laboratories. Prerequisite: NUTR 3244, 2245, and 3246, or 2298; Nutrition majors only. 1 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 9. Department Consent Required.

Designation: -

Campus: LISLE (Typically Offered: Fall and Spring Terms)
MESA (Typically Offered: Periodically)

NUTR 3296 Community Health Practicum. (Formerly 296) Experience designed to meet interest of an individual student and serve a community need. Off-campus site. Transportation required. Prerequisite: Major in Pre-Dietetics or Nutrition and Dietetics or Health Education and Promotion or Food and Nutrition Management; Additional coursework, credit, and GPA prerequisite are determined by nature of experience. May be repeated for credit. Liability fee: \$27.50. 1-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 18. Department Consent Required.

Designation: -

Campus: LISLE (Typically Offered: Periodically)

NUTR 3300 Nutrition and Health Aspects of Disease. (Formerly 300) Pathophysiology and symptoms of chronic disease, with a focus on associations with inadequate/excess nutrition. Topics include cardiovascular disease, hypertension, diabetes, obesity, disordered eating, and malnutrition. Applications to clinical and community settings, as well as the pre-planning phase of health education program planning. Not for students accepted in the Nutrition and Dietetics major. (NOTE: cannot receive credit for both NUTR 3300 and 4371). Prerequisite: Grade of C or better in BIOL 1155, BIOL 3258, or BIOL 1157 and 1158. Grade of C or better in NUTR 2200, 2201, 2231 or 2241. 4 semester credit hour/s.

Campus: LISLE (Typically Offered: Spring Term)
MESA (Typically Offered: Spring Term)

NUTR 3315 Nutritional Biochemistry and Metabolism. (Formerly 315) A study of the basic concepts of biochemistry applied to cellular metabolism of carbohydrates, lipids, amino acids, vitamins and co-factors. Emphasis is placed on metabolic pathways, the interrelationships of major nutrients and the relation of the metabolic processes to the overall nutritional health of an individual. Prerequisite: Grade of C or better in CHEM 1109; and Grade of C or better in NUTR 2241 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)

NUTR 3359 Nutrition Capstone. (Formerly 359) Students in the Nutrition and Allied Health program participate in a pre-determined health project. This provides students with the opportunity to integrate their course work, knowledge, and experiences into an authentic project that results in a written report and presentation regarding an issue within the field of nutrition, health, or healthcare. Students may work as an individual or in a small team. Experiences may be at an off campus site; transportation may be required. Consent of instructor required. 1-3 semester credit hour/s.

Campus: MESA (Typically Offered: Fall and Spring Terms)

NUTR 3391 Health Risk Assessment. (Formerly 391) Professional practice roles, methods, and skills. Emphasis on developing skills in medical terminology and nutrition assessment (i.e. anthropometrics and other body composition indicators, biochemical indices, clinical symptomatology, dietary intake) for health promotion and disease prevention. Transportation may be required. Pre-requisite: Grade of C or better in BIOL 3258, or BIOL 1157 and 1158, or BIOL 1155; NUTR 2241 and NUTR/HLED 2280, OR credit or co-registration in NUTR4371. Lab fee of \$170. 2 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)

NUTR 4297 Quantity Foods Practicum. (Formerly 297) Supervised experience in foodservice operations and management, with emphasis on areas related to menu planning, food purchasing, cost control, and production, quality improvement, and applied sanitation and safety. May be at off-campus sites. Transportation may be required. Prerequisite: Senior standing by credit hours earned; FDNTRMGTMJ major or NTRDIETMAJ or UNPDMAJ major; Grade of C or better all of the following courses: NUTR 1150, 2241, 2245, 2250, and HLED 3271; Credit or coregistration in NUTR 4350; and GPA of 2.500/4.0 or higher. Liability fee: \$27.50. Department Consent Required. Lisle campus only. 4 semester credit hour/s. Department Consent Required.

Designation: Engaged Learning

Campus: LISLE (Typically Offered: Summer Term)

NUTR 4345 Science of Nutrition and Fitness. (Formerly 345) The course examines the metabolic and physiologic basis for macronutrient and micronutrient recommendations during training, competition/performance, and recovery. Includes disease applications, recommendations for targeted educational interventions, and case studies. Prerequisite: Grade of C or better in BIOL 3258, or BIOL 1157 and 1158. Grade of C or better in NUTR 2201, 2231 or 3241. Credit or co-registration in NUTR 3251 or NUTR 3315. Consent of Department Chairperson is required. Cross-listed as NTR/NUTR 5530. Online 3 semester credit hour/s. Department Consent Required.

Campus: LISLE (Typically Offered: Periodically)
MESA

NUTR 4350 Food and Nutrition Services Management. (Formerly 350) This course presents the students with key concepts and applications of organization structure, and management theories and operational principles, including: fiscal control, budgeting and interpretation of financial data, performance measurements and continuous quality improvement, human resource and information management, and marketing. Prerequisite: NUTR 1150 and 2250. 3 semester credit hour/s.

Campus: LISLE (Typically Offered: Spring Term)

NUTR 4371 Medical Nutrition Therapy I. (Formerly 371) Pathology, treatment and medical nutrition therapy of chronic and acute diseases and conditions, including those of the Gastrointestinal, Cardiovascular, Pulmonary, Respiratory, Urinary Systems, Diabetes, Trauma and Stress, Allergies, AIDS, and Cancer. Nutrition Support, along with related legal and ethical issues, is discussed. Includes nutrition assessment and diet prescription plans. (NOTE: cannot receive credit for both NUTR 3300 and 4371). Prerequisite: Grade of C or better in BIOL 3258, or BIOL 1157 and 1158. Grade of C or better in NUTR 2241. Credit or co-registration in NUTR 3315 or CHEM 4365. 4 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall Term)

NUTR 4372 Clinical Nutrition Case Studies. (Formerly 372) Physiological and biochemical aspects of nutrient metabolism; interrelationships between cellular reactions, nutrition, and health; nutrigenomics; biochemical and physiological principles of medical nutrition therapy for obesity, eating disorders, anemia, bone diseases, alcohol metabolism, inborn errors, and the nervous system. Prerequisite: Grade of C or better in BIOL 3258, or BIOL 1157 and 1158. Grade of C or better in NUTR 2241. Grade of C or better in NUTR 3315. Credit or co-registration in NUTR 4371. 3 semester credit hour/s.

Designation: Engaged Learning

Campus: LISLE (Typically Offered: Fall Term)

NUTR 4374 Medical Nutrition Therapy II. (Formerly 374) Physiological and biochemical aspects of nutrient metabolism; interrelationships between cellular reactions, nutrition, and health; nutrigenomics; biochemical and physiological principles of medical nutrition therapy for obesity, eating disorders, anemia, bone diseases, alcohol metabolism, inborn errors, and the nervous system. Prerequisite: Grade of C or better in BIOL 3258, or BIOL 1157 and 1158. Grade of C or better in NUTR 2241. Grade of C or better in NUTR 3315. 4 semester credit hour/s.

Campus: LISLE (Typically Offered: Spring Term)

NUTR 4375 Mentoring in Dietetics. (Formerly 375) Exploration of roles and qualities of preceptors and mentors in dietetics. Collaboration with graduate interns providing experience as mentee in the practice of dietetics. Transportation required; off-campus sites. Prerequisite: Senior standing by credits earned. 3.00 GPA. Grade of C or better in NUTR 2241. Grade of C or better in HLED 3271. Credit or co-registration in NUTR 4371 or 4374. 1 semester credit hour/s.

Campus: LISLE (Typically Offered: Fall and Spring Terms)

NUTR 4390 Selected Topics. (Formerly 390) Special topics in nutrition adjusted to the needs of the students. 3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 18. Department Consent Required.

Campus: LISLE (Typically Offered: Periodically)
MESA

NUTR 4392 Nutrition Research and Professional Writing. (Formerly 392) This course provides an overview of research methodology. Locate using current information technologies, interpret, and evaluate professional health literature as a foundation to develop a professional manuscript and complete a journal critique. Prerequisite: Grade of C or better in WRIT 1102 and credit or co-registration in MGT 1150/MATH 1150 or MATH 2229 or PSYC 2250, and credit or co-registration in NUTR 3246, NUTR 3300, or NUTR 4371, or NUTR 4374. 2 semester credit hour/s.

Designation: Writing Intensive

Campus: LISLE (Typically Offered: Spring Term)

NUTR 4395 Nutrition Counseling. (Formerly 395) Students learn principles and demonstrate techniques of effective interviewing, and counseling to facilitate behavior change. The course includes an introduction to coding and billing to obtain reimbursement for services. Prerequisite: Grade of C or better in HLED 3271; Grade of C or better in NUTR 2241; Credit or co-registration in NUTR 4371 or 4374. 2 semester credit hour/s.

Campus: LISLE (Typically Offered: Spring Term)

NUTR 4396 Specialized Nutrition and Health Practicum. (Formerly 396) Supervised experience designed to meet the interest of an individual student. May be at off-campus sites. Transportation may be required. Prerequisite: 3.0 GPA, Nutrition majors only; additional course prerequisites are determined by nature of experience. Liability fee: \$27.50. 2-3 semester credit hour/s. Course Repeatable. Maximum number of units allowed: 18. Department Consent Required.

Designation: Engaged Learning

Campus: LISLE (Typically Offered: Summer Term)
