ACADEMIC REQUIREMENTS REPORT

Students starting their degree program Fall 2020 or later will be able to access the academic requirements report through MyBenU. This tool is designed to assist students and advisors to review for outstanding degree requirements based on their completed coursework. The report will allow students to self-review their degree requirements as needed without an advising appointment.

The report is built upon the degree requirements in the catalog. The report is a snapshot as of the day the report was generated of the student's coursework and requirements. It is not an official transcript and does not represent an irrevocable contract between the student and the university. If the report contains any errors that does not automatically exempt the students from the degree requirements outlined in the catalog. Official graduation still requires a final audit review by the department and Office of the Registrar.
